61st Virtual Annual Meeting

**Diversity, Equity, and Stewardship in
New Millennium Legal Medicine**

Fri, Feb 26, 2021 8:00 AM - Fri, Mar 5, 2021 6:00 PM PST

NEEDS & OBJECTIVES

Physicians, dentists, attorneys and educators who practice in the health care industry and its related fields recognize that the practice of medicine is complicated by abundant legislative requirements, administrative rules and regulations and Federal/ State court decisions interpreting those laws.

It is difficult to maintain a working knowledge of these developments. This meeting will provide details of new legislation, rules and court decisions, societal changes and shifts in the marketplace that will impact the practice of medicine, special and vulnerable populations in particular. Key changes impacting the practice of medicine and law during the past one to two years include: fraud investigations against health professionals, the ethical and legal issues of individuals with traumatic brain injury, the delivery of care models that emphasize quality and safety within multidisciplinary teams, challenges to the Affordable Care Act, issues with vaccinations and personal exemptions, and individuals with mental health problems in front of civil and criminal courts.

NEEDS & OBJECTIVES cont.

OBJECTIVES

The 61st Annual Conference of the American College of Legal Medicine will focus on topics related to Diversity, Equity, and Stewardship in New Millennium Legal Medicine. By the conclusion of the meeting, participants should be able to:

- Describe recent legislative and court opinions affecting medical and dental practice.
- Integrate medical and legal ethics into their daily practice.
- Explain legal and ethical challenges of dealing with vulnerable and special populations and techniques to prevent obstacles to diagnosis and treatment of these populations.
- Describe the impact of the COVID-19 pandemic on public health, including an understanding of different international approaches to disease prevention and treatment, and lessons learned for future pandemics.
- Describe the prevalence of forced sterilization and integrate the identification, prevention, and/or representation of individuals who are potentially affected by this procedure.
- Explain the implications of substance abuse among health care providers including balancing the need for effective treatment and privacy with protection of the public health.
- Describe techniques for using artificial intelligence within the health care system to prevent patient harm, to assist, educate and provide legal services to patients and their families, and to avoid professional liability.
- Explain the legal implications of the expansion of Corporate Practice of medicine as well as Independent nurse practitioners and methods for negotiating more favorable contracts with their employees/ employers.
- Describe dental and legal issues involved in today's health care.
